

I am writing in regards to the positive effect K-LOVE radio ministries has in our community. It is the only Christian radio station I am aware of in my area, and it provides many people I know with wholesome, family-friendly music. There is no concern about the content we will hear on K-LOVE, compared to other mainstream radio stations.

If K-LOVE were no longer on the air in our area, there would be a great void for the numerous people who listen - particularly children who are uplifted by the message sent in the music. With K-LOVE, we do not have to worry about inappropriate jokes, foul language, or topics that are inappropriate for small children such as sex, violence, or drugs. This is SO rare in this day and age! The evidence that K-LOVE serves the public interest in my area is in the continuous financial support provided to the ministry by our area. If we did not believe in the ministry or gain something from it, we would not be supporting it with our own money.
